SUBJECT: NSDD-84 Nondisclosure Agreement

Attached for your signature is a memorandum advising Judge Clark that you have no substantive objections to the nondisclosure agreement sent out with his memorandum dated 10 August 1983. The attached memorandum also cites the need for safeguards to ensure effective prepublication review of material submitted to agencies which are less familiar with SCI content and procedures.

MEMORANDUM FOR: Assistant to the President for National Security Affairs
SUBJECT: NSDD-84 Nondisclosure Agreement
REFERENCE: Your Memorandum dated 10 August 1983, Same Subject

In accordance with our recent discussions on this subject, I have no substantive objections to the nondisclosure agreements forwarded with the referenced memorandum.

I continue to have a measure of concern, however, about the mechanics of implementing the provision in the SCI nondisclosure agreement that material may be submitted for prepublication review to the department or agency "last granting me either a security clearance or an SCI access approval." My representatives to the working group expressed concern that agencies which do not grant SCI access approvals may not handle review requests for material containing SCI as effectively as those which regularly deal with SCI. Both the effectiveness and the promptness of the review may suffer. My representatives were given assurances that proper safeguards would be taken to avoid either failure to find and delete SCI in a manuscript or unjustified delay in the review.

I mention this at this time simply as a reminder that sufficient guidance and instruction need to be provided to avoid problems arising from submittal of material for review to agencies that are less familiar with SCI content and procedures.

Yours, William J. Casey
